

GANDER

The standard scrub area is not equipped to handle the needs of a busy staff.

With various mask styles, scrub brush types, PPE and other single use items at each sink, as well as dozen of surgeons, techs, and nurses moving in and out throughout the day, your sink may end up a mess.

With Gander:

Store 3 times as much product in each area, reducing the need for constant restocking

Protect your items from unnecessary waste from and from contamination.

Conform to JCAHO standards, and above all, keep your Scrub Sinks efficient.
